

keraphlex[®] instructions

Step 1 Protection

1. Prepare bleaching or colouration according to manufacturer's information.
2. Add Keraphlex Step 1 to your colouring preparation as follows and stir thoroughly. In case of badly damaged hair, increase dosage.

Dosage instructions A: Bleaching and lightening

30ml-60ml colouring preparation.....	5-9ml Step 1
61ml-120ml colouring preparation.....	10-14ml Step 1
121ml-180ml colouring preparation.....	15-22ml Step 1

Dosage instructions B: permanent/semi-permanent colouring

30ml-60ml colouring preparation.....	3-5ml Step 1
61ml-120ml colouring preparation.....	6-8ml Step 1
121ml-180ml colouring preparation.....	9-11ml Step 1

3. Observe processing time for bleaching or colouring as given by the manufacturer.
4. Rinse hair well and shampoo.
5. Towel-dry hair.

Step 2 Strengthening

1. Apply Step 2 from roots to hair ends; work well into the hair.

Processing times:

Normal hair	10 minutes
Fine, bleached or lightened hair	2-5 minutes
Very strong, highly pigmented colouration.....	5-10 minutes

2. Rinse thoroughly and continue as usual.

ELKADERM: KERAPHLEX with perming

Apply the Step 1 after rinsing off the perm lotion. Apply either with spray bottle or applicator (mixing at a ratio of 1:3, for example 4 ml Step 1 with 12 ml of water). Use the fixation as usual and apply Step 2 after rinsing the hair thoroughly. After a processing time of approx. 5-10 mins., rinse out and continue as usual.

ELKADERM: KERAPHLEX Treatment

Apply Step 2 starting at the roots through to the hair ends; work in thoroughly. The hair may be cut during the processing time. For an intensive care treatment and an enhanced client experience use heat (Climazon). After a processing time of 10 mins., rinse out and continue as usual.

ELKADERM: KERAPHLEX Instant Repair

Step 1 + Step 2 Hair repair

1. Mix KERAPHLEX Step 1 with Step 2 at a ratio of 1:7 (1 ml KERAPHLEX Step 1 to 7 ml Step 2); apply the mixture from the roots to the hair ends; work in thoroughly.
2. Processing time of 10 minutes by applying heat (Climazon).
3. Rinse thoroughly and continue as usual.
